Mike "Dice" Paradise sent us a bunch of great photographs. This one of Mike driving over Crater Lake was actually taken by Arnie Clarke on 06/16/75 during his advisor tour with the Sioux City ANG. Mike says Arnie's maneuvering for optimum position, "made the shot." We agree it's a great one over another American Landmark. Shaun Ryan spruced up the old negative a bit. Thanks to all.

The Intake is published thrice a year by the Super Sabre Society Inc., d.b.a. **Super Sabre Society, P.O. Box 341837, Lakeway, TX 78734. (Dues should be sent to this NEW address!)** The society is open to all F-100 Fighter Pilots, F-100 Wild Weasel Bears and F-100 Squadron Flight Surgeons. Associate memberships will be offered at the discretion of the Membership Committee. There is no political agenda, although we support and respect the office of the President of the United States. There is no religious agenda, although men who trusted their lives to a slatted wing and a single J57 engine also trust in a higher authority. There is no social agenda, except to meet each other in mutual respect and admiration. We are the men who flew the mighty Hun!
